## 1. Project Background

Historically, West Bengal has played an important role for the development of the textile and apparel industry and till date it is a major manufacturer of hosiery products, garments and technical textiles. In 2019 – 20 this state has exported textiles and apparel worth ~USD 1 Bn.

West Bengal has the right combination of the factors required for the growth of the sector. Some of the key points have been highlighted below:

1. **Raw material availability:** West Bengal is the largest supplier of raw jute, third largest supplier of Mulberry silk and a major supplier of Purified Terephthalic Acid (PTA) which is the raw material for manufacturing of polyester fiber
2. **Availability of skilled manpower:** It grooms ~700 Graduates and Postgraduates for this industry every year. The educational institutes of West Bengal groom Graduates and Postgraduates in other streams (mechanical, electrical, electronics, civil engineers, industrial engineering, business management, IT etc.) which supports the growth of the sector. The TVET institutions and training centers provide skilled manpower for the shop-floor level.
3. **Market access:** The West Bengal government has targeted to double its textile industry in the state to INR 70,000 Crores<sup>1</sup> by 2024-26. This state is also the gateway to Bangladesh which imported textiles worth USD 8.82 Bn in 2020<sup>2</sup>
4. **Power and Water:** The State is self-sufficient with respect to power and water. It is now in a position to export power to other states after meeting its internal demand fully. It has drawn up ambitious plans for installing 100 MW Grid Connected Ground Mounted Solar PV Power Plant and Grid Connected Roof top Solar PV Power Plants.<sup>3</sup>
5. **Industrial Infrastructure:** A number of textile parks and apparel parks are functional / under implementation. Paridhan Garment Park (Ph 1 & Ph 2) and Regent Garment & Apparel Hub (Ph 1) are already operational. Other major parks include EIGMEF Apparel Park, Kona Integrated Garment Park, West Bengal Hosiery Park, Integrated Textile Park. Government has also planned to come up with more textile parks / clusters including apparel hubs in Nungi and Metiabruz.
6. **Logistics and transportation:** 16 National Highways are connecting the State with rest of the India and two upcoming Asian highways will connect the State with Nepal, Bhutan and Bangladesh. Upcoming Amritsar Kolkata Industrial Corridor is expected to boost industrial linkages of West Bengal with 20 cities across seven states in India. Two large container and bulk handling river ports exist at Kolkata and Haldia. One deep seaport is coming up at Tajpur. The State has two international airports at Kolkata and Bagdogra. Apart from this the domestic airport in Durgapur caters to major metros in India. The state also has planned to operationalize Coochbehar, Balurghat and Malda airports in near future.
7. **Policy Support:** Government of West Bengal has taken major policy reforms for the Ease of Doing Business (EoDB) which includes automation of the approval processes, digitization of the processes, increasing the tenure of validity of approvals, simplification of the processes, single window clearance system, 'No Bandh' regime, time bound service delivery etc. The state shall also support Water and

Electricity supply, skill development initiatives, ETP development etc. The industry can also benefit under PLI scheme as per GoI guidelines.

Government of West Bengal has identified following areas as strategic thrust areas for attracting new investment in textile and apparel sector in next three to five years.

1. Scaling up readymade garment sector
2. Diversifying into technical textiles
3. Development of complete value chain for man-made fiber-based textiles and apparel
4. Strengthening and upgrading weaving, knitting and hosiery industry
5. Developing the support ecosystem – textile auxiliaries and machinery
6. Setting up of a designing and technology facilitation center
7. Promotion of cleaner production system

It is important to mention here that at present the apparel manufacturers of West Bengal source majority of their woven fabric from other States such as Maharashtra, Gujarat, and Tamil Nadu. So, the upcoming textile manufacturing units will have a ready market available to them.

With this background Government of West Bengal has planned to develop textile and apparel manufacturing units (spinning, weaving, knitting, hosiery, and garmenting) in following four locations and any other location (privately owned) within West Bengal if it meets the minimum eligibility criteria mentioned in this document.

- 1) Ashoknagar, District North 24 Parganas
- 2) Banipur, District North 24 Parganas
- 3) Kalyani, District Nadia
- 4) Raigunj, District North Dinajpur.

All the above four locations are well connected by road, rail, air, and sea. Details of the connectivity of the above four locations have been provided in the Annexure I.

**The private players, who will be selected for specific location, shall be responsible for design, construction, finance, operation, and maintenance of proposed manufacturing units.** If the private players are interested to set up their textile and apparel manufacturing unit within any of the following four textile parks, they have to apply for plots of land at advertised price. The price discovery mechanism for the plots within the following four textile parks will be decided at the RFP stage.

- 1) Ashoknagar, District North 24 Parganas
- 2) Banipur, District North 24 Parganas
- 3) Kalyani, District Nadia
- 4) Raigunj, District North Dinajpur.

The 4 locations may also have some existing structures, the utilisation & allocation of these will be decided during RFP stage.

## 2. Fiscal and non-fiscal support of Government of West Bengal

Following fiscal benefits will be provided by Government of West Bengal to **Spinning, Knitting, Hosiery and Garmenting** MSME units under 'Banglashree' scheme. However, the following subsidies have additional clauses and maximum limits. Please refer the details of the scheme provided in <https://wbmsmet.gov.in>

Type of incentive	Incentive details
Capital Incentives	Micro enterprise: 25% to 60% of the fixed capital incentives Small enterprise: 15% to 40% of the fixed capital incentives  Additional subsidy of 20% on State Capital Investment Subsidy to eligible micro & small enterprises
Interest subsidy on term loans	55% - 70% of interest liability for 5 years
Electricity Duty	Micro & Small enterprises: 50% to 75% waiver for 5 years Medium enterprises: 75% to 100% waiver for 6 years
Electricity Charges	Subsidy of Rs. 1.00/- to Rs. 1.50/- per Kwh
Energy Eff Subsidy	Reimbursement of 50% of the cost of energy audit Reimbursement of 25% of the cost of installations for energy conservation measures
Subsidy on stamp duty and registration fee	Micro & Small enterprises: 25% to 100% Medium enterprises: 75%
Subsidy for SGST	30% to 50% of the net SGST paid
Subsidy for water conservation / environment compliance	Reimbursement of 50% of cost of captive Effluent Water Treatment Plant and/or pollution control devices
Subsidy for Standard quality compliance	Reimbursement of 50% of the expenditure
Workforce Welfare Assistance	50% to 100% of contribution towards ESI and EPF for 5 – 9 years
Subsidy for patent registration	50% of the expenditure incurred

Following **non-fiscal benefits** will be provided by Government of West Bengal to all **Spinning, knitting, hosiery and Garmenting** units which will take up land within the aforementioned four textile parks:

- Developed land with basic common infrastructure facilities like boundary wall, internal road network etc.
- Common Effluent Treatment Plant (CETP) to ensure effluent treatment according to pollution abatement norms
- 24X7 uninterrupted water and electricity supply to the unit
- Skill Training under 'Utkarsh Bangla' Scheme
- Warehousing facilities on rent basis within the textile parks and apparel parks developed by GoWB
- Easy access to chemical / auxiliary suppliers, spare parts suppliers and other service providers as spaces will be provided to those companies within the textile parks on meeting certain conditions
- Facilitation service for availing benefits of the schemes / programs of Government of India and GoWB
- Facilitation service for all applicable permits / clearances / statutory approvals under Single Window Services portal of Silpa Sathi.

For interested **Powerloom** (preferably including processing facilities) MSME units the above-mentioned fiscal incentives will be applicable with the only change in capital incentive as follows:

Type of incentive	Incentive details
Capital Incentives	Flat 20% of Powerloom cost

In addition to the above-mentioned **non-fiscal benefits**, following additional benefits will be provided to all types of Powerloom units

- a) Government of West Bengal has been providing school uniforms to all students up to Class VIII which require procurement of woven fabric (approx. 6 Crores Mtrs.). Currently, majority of this is being procured from outside of the state. The state government has envisioned to reduce this external dependency and develop fabric production capacity within the state. In line with the same, GoWB has planned to purchase minimum 50% of the required uniform fabrics (and other fabrics as decided at a later stage) for at least 3 years from the units which will be set up under this Expression of Interest and further RFP/NIT/RFQ. Later uniform fabrics for other categories (e.g., hospitals, hospitality sectors etc.) may also be added in this category thereby increasing the procurement proportionately. A price discovery mechanism will be finalized by GoWB at a later stage through a suitable transparent pricing / market pricing comparison mechanism.

**Note:** All other schemes / programs offered by Government of India can also be dovetailed with the abovementioned benefits.
